**DETAILED ACTION**

1. This divisional application has been amended to cancel claims 1-58, 114 and 115 without prejudice or disclaimer.

***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a) because they fail to show reference number 333 as described in the specification on page 23 line 19. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Correction is required.

**Election/Restrictions**

3. Applicant is required under 35 USC 121 to elect one of the following disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.
  - a. The embodiment (fig. 13-15) wherein a plastic is molded around a projectile.
  - b. The embodiment (fig. 18-21) wherein a plastic is molded to form a single piece case with a base.
  - c. The embodiment (fig. 22-27) wherein a plastic is molded around a core pull to form two pieces case.
  - d. The embodiment (fig. 28) wherein a plastic is molded to form a case with web including a prong.

4. Applicant is advised that a reply to these requirements must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
